About Me

My name is Fariol Blondeau NZIODZIAMI, I'm a computer science student. I am an active, dynamic and responsible person with work. Enthusiastic about technology and new information systems, I trained in web development on different online platforms, like Coursera, Scrimba and OpenClassrooms.

Experience

- Feb 2023 - Mar 2023
Frontend web Developer
Central Universal Scientific Library

Analysis of the library's official website, proposal of a layout that reveals the design of a modern website adapted for the library. Make suggestions and fix bugs on different pages of the site.
- Dec 12. 2022
GitHub repository contribution
AskDevs

AskDevs is a developer community where you can tweet your technical questions to tech twitter volunteers. In this project I've contributed in fixing some bugs with the UI.
So you can find the project repository on my Github page.
- Dec 6. 2021
Frontend web developer
Freelance

I offer services in the design of website, portfolio, landing page and blog in full HTML and CSS with a responsive design.
